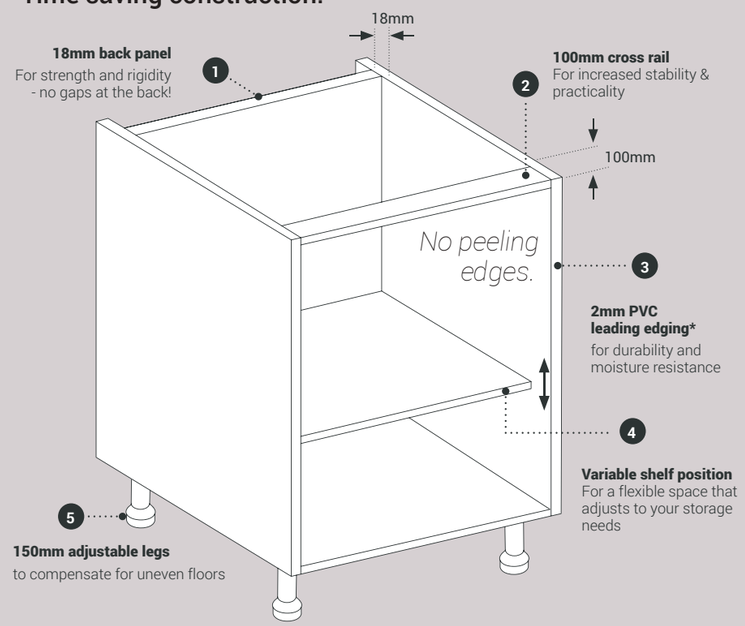
QUALITY LIES IN THE DETAIL

The outstanding specification on cabinets provide a high quality long lasting unit.

Time saving construction.



* Excl. curved unit shelves where the radius does not allow this edging to be used, 0.8mm edging used instead.

The Shaker *Collection*

Timeless Simplicity, Crafted for Every Home

Rooted in tradition yet effortlessly versatile, the **Shaker Collection** embodies classic design principles - simplicity, functionality, and fine craftsmanship.

Characterised by clean lines and a framed panel design, Shaker doors offer a timeless aesthetic that suits both traditional and modern kitchens alike.

Our collection includes **5-piece construction** for an authentic, handcrafted feel or **moulded options** for a more modern alternative - both available in a wide range of materials and colours to suit every style and budget.

PULL OUT STORAGE

LARDER WIREWORK

Housed within larder units, these pull outs create easy access to your essentials, from top to bottom.

MAXIMA PULL OUT:

Opens separately for easy access. Available for 500mm units in Dynamic & Elite and for 600mm units in Dynamic.

TALL LARDER PULL OUT:

Attached to door and opens as one unit. Available for 300mm units in Dynamic and for 400mm units in Dynamic & Elite.

- Dynamic - metallic grey wire baskets
- Elite - anthracite wire baskets, solid titanium base

BASE UNIT WIREWORK

Practical soft close storage solutions for 150mm filler and 300mm wide base unit spaces.

150 BASE PULL OUT:

Available in Dynamic & Elite

300 BASE PULL OUT:

Available in Dynamic & Elite

- Dynamic - chrome wire baskets
- Elite - anthracite wire baskets, solid titanium base

SMART LARDER

5 grey soft close drawers at your fingertips with frosted glass panels for style, strength and quick visibility, larder access has never been easier.

CORNER SOLUTIONS - only available on 450mm & 500mm door options

Corners are often the most problematic area in a kitchen but represent a large space. Choose pull outs or carousels to make use of the space and make your corners an area to be proud of.

CORNER PULL OUT:

4 baskets opening as one soft close unit with a generous amount of storage space for your essentials. Available in Dynamic & Elite.

- Dynamic - chrome wire baskets
- Elite - anthracite wire baskets, solid titanium base

COMBI SHELVES:

Pull out shelves opening individually, cleverly designed to open easily whilst making the most of your corner space. Available in Dynamic & Elite.

- Dynamic - chrome rails with grey anti-slip trays
- Elite - titanium rails with anthracite anti-slip trays

CAROUSELS:

Our popular carousels offer easy and affordable access to standard and L-shape corners.
Available in chrome.

- Chrome

prima

The Smarter Choice™

For all your customers' everyday needs

PRACTICAL

Prima appliances are designed for your everyday needs, and to be easy every time you use them.

Whether it is an oven, a microwave, or a washer dryer, most of us will use a small number of programmes most of the time and so our appliances make it really easy to use these programmes and to get great results every time.

For those who want to be a little more adventurous, our feature rich Prima+ ovens have additional programmes and settings to let you experiment.

For all your everyday needs

EFFICIENT

All Prima appliances have an excellent energy rating, meaning that they are better for the environment and also much cheaper to run.

FREE 5 YEAR GUARANTEE
(5 YR PARTS/2 YR LABOUR)

With our parts & labour guarantee you can have the peace of mind that a Prima appliance will give you easy and reliable everyday use for years to come.

RANGE

The Prima range has everything you need to complete your kitchen, from built-in ovens to the kitchen sink.

Whether you prefer a gas hob or an induction hob (which can boil a pan of water in under a minute); ovens with dials or a digital touchscreen; or even if you prefer a 70/30 split fridge freezer to a 50/50 split; our Prima range has a great product to match your preferences.

VALUE

Prima products are specifically built to combine great features and looks at a price that suits every budget.

Our Prima+ products have added functions and style features that make them the ideal alternative to more expensive brands but at a much lower price adding to the value of buying Prima.

High spec products at a much lower price

Curved-Edge

Contemporary laminate surfaces

Diversite Curved-Edge has a 3mm radius curve on the top and bottom edges of the worktop, breakfast bar and island units.

Upstands come with a 6mm radius on the top edge. Splashbacks are square cut.

Great choice

What will it be? Wood or stone, Classic or abstract? All Diversite Curved-Edge surfaces are available with a collection of 40 stunning décors to choose from.

Hygienic design

All Diversite Curved-Edge surfaces are made of durable moisture resistant materials that have fewer joints meaning there are less places where dirt can get trapped. Therefore they are easy to keep clean, making them extremely hygienic.

We know a great deal of thought has to go into designing your perfect kitchen. From the choice of cabinets and flooring, to the style of sink and tap, it's important everything fits together and colour matches perfectly.

With this in mind, we've developed Diversite Curved-Edge so it can be used in a number of versatile ways within your kitchen.

1. Worktops

Sinks, drainers, taps and hobs can all be fitted into the worktop, whilst ovens, dishwashers and other appliances can be fitted below. As worktops take up the biggest surface area in your kitchen, you need to be sure you have the right colour choice. That's why 40 décors are available for you to choose from.

2. Breakfast bar and island units

Available in both 665mm and 900mm widths, these are often the social hub of the kitchen and the surface where most food is prepared. They are available in all of the 40 Diversite Curved-Edge décors.

Why not use a contrasting décor for your island unit as we have done in this image.

3. Upstands

Easy to install and maintain, upstands are a very cost-effective way of protecting your walls from impact and splashes. They are available in all of the 40 Diversite Curved Edge décors.

4. Splashbacks

A cost effective and easy to clean alternative to traditional tiles, without any unsightly grout lines. Because they are available in all of the 40 Diversite Curved-Edge décors, splashbacks can create a stylishly seamless look with an identical décor and texture to your worktops and upstands. Splashbacks can also be used as a distinctive feature wall either in your kitchen or anywhere else in your home.

Beautifully tough

Worktops

Worktops used in the kitchen or utility room need to be versatile.

They have to be hard wearing yet look great.

They must also accommodate hobs and drainers from above, while enabling ovens, dishwashers and other appliances to work uninterrupted below.

It's why all Diversite Curved-Edge surfaces are made of hygienic, durable materials that work perfectly with everything in your kitchen and utility room.

A choice of 40 stylish décors and 6 textures are available including dazzling stones, realistic woods and original abstract designs.

Each worktop has one long curved edge to give seamless protection.

Worktop dimensions:

3600 x 600 x 40mm
1800 x 600 x 40mm

diversite collection | Curved-Edge
Contemporary laminate surfaces

Sociable surfaces

Breakfast Bars and Island Units

With the addition of a Diversite Curved-Edge breakfast bar or island unit, you will be creating a social hub in your kitchen.

You'll have more room to prepare food, share meals and simply relax with friends and family.

Available in the same 40 décors and 6 textures as all the other Diversite Curved-Edge surfaces.

The two long edges of the breakfast bars and island units have smooth curved edges to give a seamless look and to reduce the risk of young children hurting themselves by running into a sharp edge.

And thanks to the choice of dimensions available, wasteful offcuts and joints are kept to a minimum.

Breakfast bar and island unit dimensions:

3600 x 665 x 40mm
1800 x 665 x 40mm
3600 x 900 x 40mm
1800 x 900 x 40mm

diversite collection | Curved-Edge
Contemporary laminate surfaces

Wall protection

Splashbacks and upstands

Splashbacks and upstands share the same 40 décors and 6 textures that are used by the worktops, island units and breakfast bars. They deliver an easy to clean, beautiful and cost-effective protection for your walls.

Splashbacks

An increasingly popular alternative to tiles because splashbacks don't have unsightly and unhygienic grouted joints and they are far less expensive to install.

Each splashback is delivered with square cut edges. This is because splashbacks are usually installed up to the edges of your walls, worktops and cabinets, so they do not need curved edges.

Upstands

Featuring a curved top edge, Diversite Curved-Edge upstands provide a seamlessly hygienic barrier between the wall and the worktop.

Splashback dimensions:

3000 x 1210 x 8mm

Upstand dimensions:

3600 x 100 x 18mm

Square-Edge

Contemporary laminate surfaces

Gain the edge

Colour. Texture. Touch. All play a key role when choosing your new kitchen surface. It's important however not to overlook the style of edging for your worktops, breakfast bars and island units. After all, it's only natural to want your kitchen to look the part from every angle.

With Diversite Square-Edge laminate surfaces you get the same crisp and clean-cut lines you get from high-end natural stone and real wood products, but at a fraction of the cost. And the benefits don't end there. Like all laminate surfaces, Diversite Square-Edge is a breeze to clean and provides a super hygienic and versatile option for your home.

diversite collection | Square-Edge
Contemporary laminate surfaces

Better all around

All worktops, breakfast bars and island units have a decorative surface on the top, underside and all edges giving you a seamless finish from every angle.*

*2020mm long worktops have two long edges and one short edge bonded with a decorative surface.

Through thick and thin

Diversite Square-Edge worktops, breakfast bars and island units are all available in both 22mm and 40mm thicknesses, giving you the freedom to stay consistent or mix things up.

Going strong

Worktops

Their name says it all, worktops are designed to do hard graft day in, day out. It's the reason all Diversite Square-Edge surfaces are made of highly durable materials that can stand up to our always on the go lifestyles in absolute style.

In addition to being hardwearing, Diversite Square-Edge worktops are able to accommodate sinks, hobs and drainers on top, while ovens, dishwashers and washing machines can be easily slotted below.

24 décors are available to choose from including marble, granite, concrete and numerous wood effects. Additionally, each worktop has its top, underside and all edges bonded with an identical decorative surface* to provide a beautifully seamless effect.

We're firm believers in reducing joints and minimising waste, which is why our worktops are available in a practical range of standard sizes ensuring you only have to purchase what you need for your design. They also have a standard 650mm width to allow appliances to be fitted underneath with room to spare for utility pipes and wires at the rear.

Worktop dimensions:

4050 x 650 x 22mm 2020 x 650 x 22mm*
4050 x 650 x 40mm 2020 x 650 x 40mm*

These standard size worktops can be precisely machined to the dimensions you need for your kitchen design.

*2020mm long worktops have two long edges and one short edge bonded with the same decorative surface.

diversite collection | Square-Edge Contemporary laminate surfaces

A fine spread

Breakfast Bars and Island Units

More room to serve. Extra space to breath. Or simply a place to unwind. However you use your breakfast bar or island unit, the additional width and surface area they provide will quickly prove a recipe for success.

Breakfast bars and island units are available in all Diversite Square-Edge décors in a wide range of standard sizes. What's more, as both sides and all edges are bonded with these décors even the underside perfectly matches the rest of your kitchen. Got something unique in mind? Then take advantage of our custom-made service (see page 14 for details).

Breakfast bar and island unit dimensions:

4050 x 900 x 22mm 2020 x 900 x 22mm*

4050 x 900 x 40mm 2020 x 900 x 40mm*

These standard size breakfast bars and island units can be precisely machined to the dimensions you need for your kitchen design.

*2020mm long breakfast bars and island units have two long edges and one short edge bonded with the same decorative surface

diversite collection | Square-Edge Contemporary laminate surfaces

Endless style

Decorative end panels

Can you really have too much of a good thing? When it comes to the added protection, durability and style of Diversite Square-Edge we're firmly in the no camp. It's why we offer decorative end panels, which are designed to flawlessly fit at the gable or open end of your cabinets to create a seamless look that's perfectly colour coordinated with your worktops, breakfast bars and island units.

CARRERA MARBLE (MATT)

Both sides and all edges of each end panel share the same exact décors as all other Diversite Square-Edge surfaces and are available in both 22mm and 40mm thicknesses to ensure complete uniformity with other surfaces.

diversite collection | Square-Edge Contemporary laminate surfaces

Beautiful barrier

Upstands and splashbacks

We understand a kitchen is no small investment, which is why we believe it pays to invest in splashbacks and upstands. This easy to clean, cost-effective protection for your walls will ensure your kitchen looks suitably delicious long into the future. Both are available in the full range of Diversite Square-Edge décors, ensuring the added value they provide doesn't come at the cost of style.

Splashbacks

Quick to install and even quicker to wipe clean, it's hardly surprising splashbacks are an increasingly popular alternative to tiles. The fact they don't feature unsightly and unhygienic grouted joints is also a big selling point.

Splashback dimensions:

3000 x 1210 x 8mm

Upstands

Upstands provide a seamlessly hygienic barrier between the wall and the worktop. When used alongside a splashback in a kitchen design, the 12mm thick colour matched top edge of the upstand provides a seamless ledge on which the 8mm splashback can be installed.

Upstand dimensions:

4050 x 100 x 12mm

diversite collection | Square-Edge Contemporary laminate surfaces

Fits together beautifully

Single-minded simplicity

1. Cabinet framing

It's the little touches that count. By using 22mm Diversite Square-Edge you'll enjoy greater design harmony in your kitchen while also benefitting from a surface that's easier to clean and maintain than standard cabinet panelling.

2. Shelving

Bring added functionality without compromising style with colour coordinated shelving. What's more, as every 22mm Diversite Square-Edge surface features the same décor on both sides and all edges, it'll look the part from every angle.

3. Open cupboard spaces

Creatively coordinate all your available spaces by using 40mm Diversite Square-Edge panels on your open cupboard spaces.

4. Windowsills

22mm Diversite Square-Edge surfaces provide a distinctive alternative to traditional white gloss or UPVC windowsills. They're also a breeze to keep clean and less prone to colour discolouring from prolonged sunshine.

5. Worktops

As the largest surface in the kitchen, the décor you choose for your worktops goes a long way to setting the mood. If you want your kitchen to feel bigger, opt for lighter tones. Want to make it feel more intimate? Darker tones are your friends. Luckily, we've got a wide range of both. Don't forget, sinks, drainers, taps and hobs can be installed into the Diversite Square-Edge worktop, whilst cooking and washing appliances can be easily installed below.

6. Breakfast bar and island units

With the kitchen increasingly the heart of the home, extra space is priceless. With the addition of a breakfast bar or island unit you'll have more room for sharing meals, digesting the newspaper or simply sitting down with a brew. They also provide a perfect opportunity to inject a little visual contrast into your kitchen, as shown in this example.

7. Decorative end panels

Extend the colour coordination of your worktops, breakfast bars and island units by asking your installer to fit a matching Diversite Square-Edge decorative end panel at the gable or open end of your cabinets.

8. Upstands

Easy to clean, quick to install and highly cost-effective, coordinated Diversite Square-Edge upstands create a stylish protective barrier where your worktops meet your walls.

9. Splashbacks

This cost-effective alternative to traditional tiles helps beautifully tie your kitchen together. In addition to creating a colour coordinated protective wall panel behind the worktop, splashbacks are also easy to wipe clean.

Guaranteed to deliver

Lifetime warranty

The style and practicality you desire today, the peace of mind you demand for tomorrow. That's the beauty of Diversite Square-Edge, which includes a lifetime warranty against manufacturing defects so you can be fully confident you'll enjoy your new kitchen for many years to come.

Every Diversite Square-Edge surface also comes with a simple set of guidelines to help you keep it looking super fresh with minimum fuss.

What's more, in the unlikely event your surface shows unexpected wear and tear you have our word we'll make good by repair and/or replacement any surface shown to have failed due to an issue with design, materials or workmanship.

*The multipurpose panel is bonded on both sides with laminate and has ABS / PP colour matching all 4 edges. It is available in all 24 Diversite Square-Edge décors and is used for shelving, cabinet framing and lining open cabinet areas. Multipurpose panels are custom made and require a 3 week delivery time from point of order.

Please Note: We have price bands A and B, where A is the lowest price and B is the highest price. This is due to different levels of décor and texture sophistication.

Remarkable style, remarkably slim

Diversite Kompact

Great design rarely shouts, but rather quietly commands. Such is the case with Diversite Kompact worktops. Quick to install and impossible to ignore, they provide the perfect option for contemporary kitchens and utility areas.

Why choose Kompact?

Stunning appearance of natural stone or marble without the heavy price tag.

Impressive impact and abrasion resistance thanks to its solid construction.

Completely waterproof, enabling you to integrate with stylish drainer grooves and sleek undermounted sinks.

Hygienic design ensures liquids can be easily wiped away without any surface absorption, greatly reducing the growth of bacteria.

Quicker and easier to install than real stone or marble products, Kompact doesn't require any time-consuming surveys and can be installed with regular woodworking tools.

diversite collection | Kompact

Ready for action

Worktops

Diversite Kompact worktops aren't simply designed to catch the eye. They're designed to be used.

Day in, day out. It's why they're made of durable, waterproof materials that can withstand both the hottest kitchens and wettest bathrooms.

Hardworking by design

Save money by installing an inset sink and separate drainer or splash out on a sleek undermounted sink fitted with integrated drainer grooves.

Kompact worktops are designed to perfectly integrate all your kitchen appliances.

Hobs can easily be fitted into Kompact worktops with a pan drawer below. And a single oven can be fitted with a filler panel below.

Entertainment centre

Breakfast bars and island units

With the addition of a Diversite Kompact breakfast bar or island unit, you'll have more space than ever to prepare food and entertain your family and friends in the heart of your home.

Thoughtful by design

Thanks to Kompact's solid core, curved corners can be formed to follow your existing cabinet design, creating a seamless design.

The colour of the solid core of each décor has been chosen to perfectly complement the surface décor.

Kompact breakfast bars and island units are available in the same matching 18 décors as the main worktops (see pages 14-15 for details).

Breakfast bar and island unit dimensions:

Every angle covered

Splashbacks and upstands

In addition to providing a stylish and hygienic barrier between your walls and worktops, splashbacks and upstands are quick to install and easy to wipe clean.

Practical by design

A more cost-effective and hygienic alternative to tiles, splashbacks and upstands share the exact same physical properties as Kompact worktops, breakfast bars and island units.

Splashbacks and upstands are available in the same 18 décors as the main worktop range to ensure a seamless colour match between surface and wall.

Splashback dimensions:

3050mm x 650mm x 12mm

3050mm x 950mm x 12mm

Upstand dimensions:

3050mm x 95mm x 12mm

IRON OXIDE
SLATE

Splashbacks and upstands are a
cost-effective and hygienic alternative to tiles.

Innovation comes naturally

Authentic textures

We believe the way a worktop feels is just as important as the way it looks. It's why we've applied three distinctive textures across the Diversite Kompact range to give each of the eighteen décors a highly natural feel.

Slate

Highlighted by an embossed matt finish, Slate offers a deeply textured finish.

Nature

This texture provides a subtle satin feel, suggesting the raw sensation of natural stone.

Matt

Providing a cool and smooth texture, matt evokes the feel of fully finished marble.

Solid-Wood

Contemporary natural surfaces

Solid performance

Work surfaces

As the most hard wearing surface in your home, it's essential your kitchen worktop be strong and resilient. Of course, it needs to look the part too. And offer long-term value and long-lasting style. It's why we created the Diversite Solid-Wood range of work surfaces.

Made of hygienic, highly durable waterproofed timbers, every product in the range naturally matures over time to reveal richer colours that will continually enhance your kitchen.

A choice of four classic solid woods is available, including striking oak, warm beech and the rich, darker tone of walnut. Furthermore, curved corners can easily be achieved thanks to the great versatility of timber.

Work surface dimensions

European Oak and European Walnut

2000mm x 650mm x 40mm

3000mm x 650mm x 40mm

4000mm x 650mm x 40mm

Rustic Oak and Rustic Beech

3000mm x 650mm x 30mm

3000mm x 650mm x 40mm

diversite collection | Solid-Wood Contemporary natural surfaces

Beautiful breathing space

Breakfast bar and island units

More room to entertain friends and family. An extra surface for food prep. A handy homework base. Whatever your reason for choosing a Diversite Solid-Wood breakfast bar area and island unit, you can be confident it will beautifully complement your main kitchen work surfaces.

Available in the same four classic solid woods as the main work surface range, they can also be curved to follow your existing cabinet design. Matching gable end panels can also be fitted to provide a stylish finishing touch to the heart of your home.

We've got you covered

Upstands

When investing in a new kitchen, it's only natural you want to enjoy the benefits for years to come. That's where upstands can make a real difference. They protect your walls from unwanted damage, while also providing a stylish and hygienic barrier. Best of all, they're easy to wipe clean and quick to install.

To ensure a flawless continuation between surface and wall, Diversite Solid-Wood upstands are available in the same four classic solid woods as the main work surface range. They're also easy to oil and maintain, ensuring they mature and naturally deepen in colour at the same rate as your main surfaces.

Contemporary natural surfaces

The story behind the surface

Proven quality

From tree felling to final installation, our single-minded vision is to deliver kitchen work surfaces of exceptional quality, strength and visual appeal. No exceptions, no excuses.

At every stage of manufacturing we draw on both our traditional craft skills and the latest manufacturing techniques. We begin by selecting timber from responsible forests, which is then carefully seasoned to reduce moisture. This process naturally strengthens the wood and makes installation easier.

Then it's time to create our work surfaces from precisely manufactured solid wood blocks (staves) of seasoned timber. The staves are bonded together with finger joints and a specialist adhesive. The result? A beautifully strong surface with square cut ends that can either be retained for a contemporary feel, or machined to your own choice of profile. The decision, as ever, is yours.

diversite collection | Solid-Wood Contemporary natural surfaces

Forever forward-thinking

Sustainability

Diversite craftspeople give as much thought to sustainability as aesthetics. Always have, always will. After all, good forest management isn't just vital to ensuring future generations can enjoy our woods and forests. Our very industry relies on it.

It's why all our timber is certified in accordance with the rules of the Forest Stewardship Council®. What's more, the use of solid wood staves in the production of Diversite Solid-Wood work surfaces ensures that we maximize the amount of wood that's used from the tree.

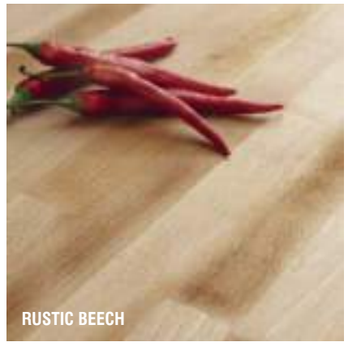
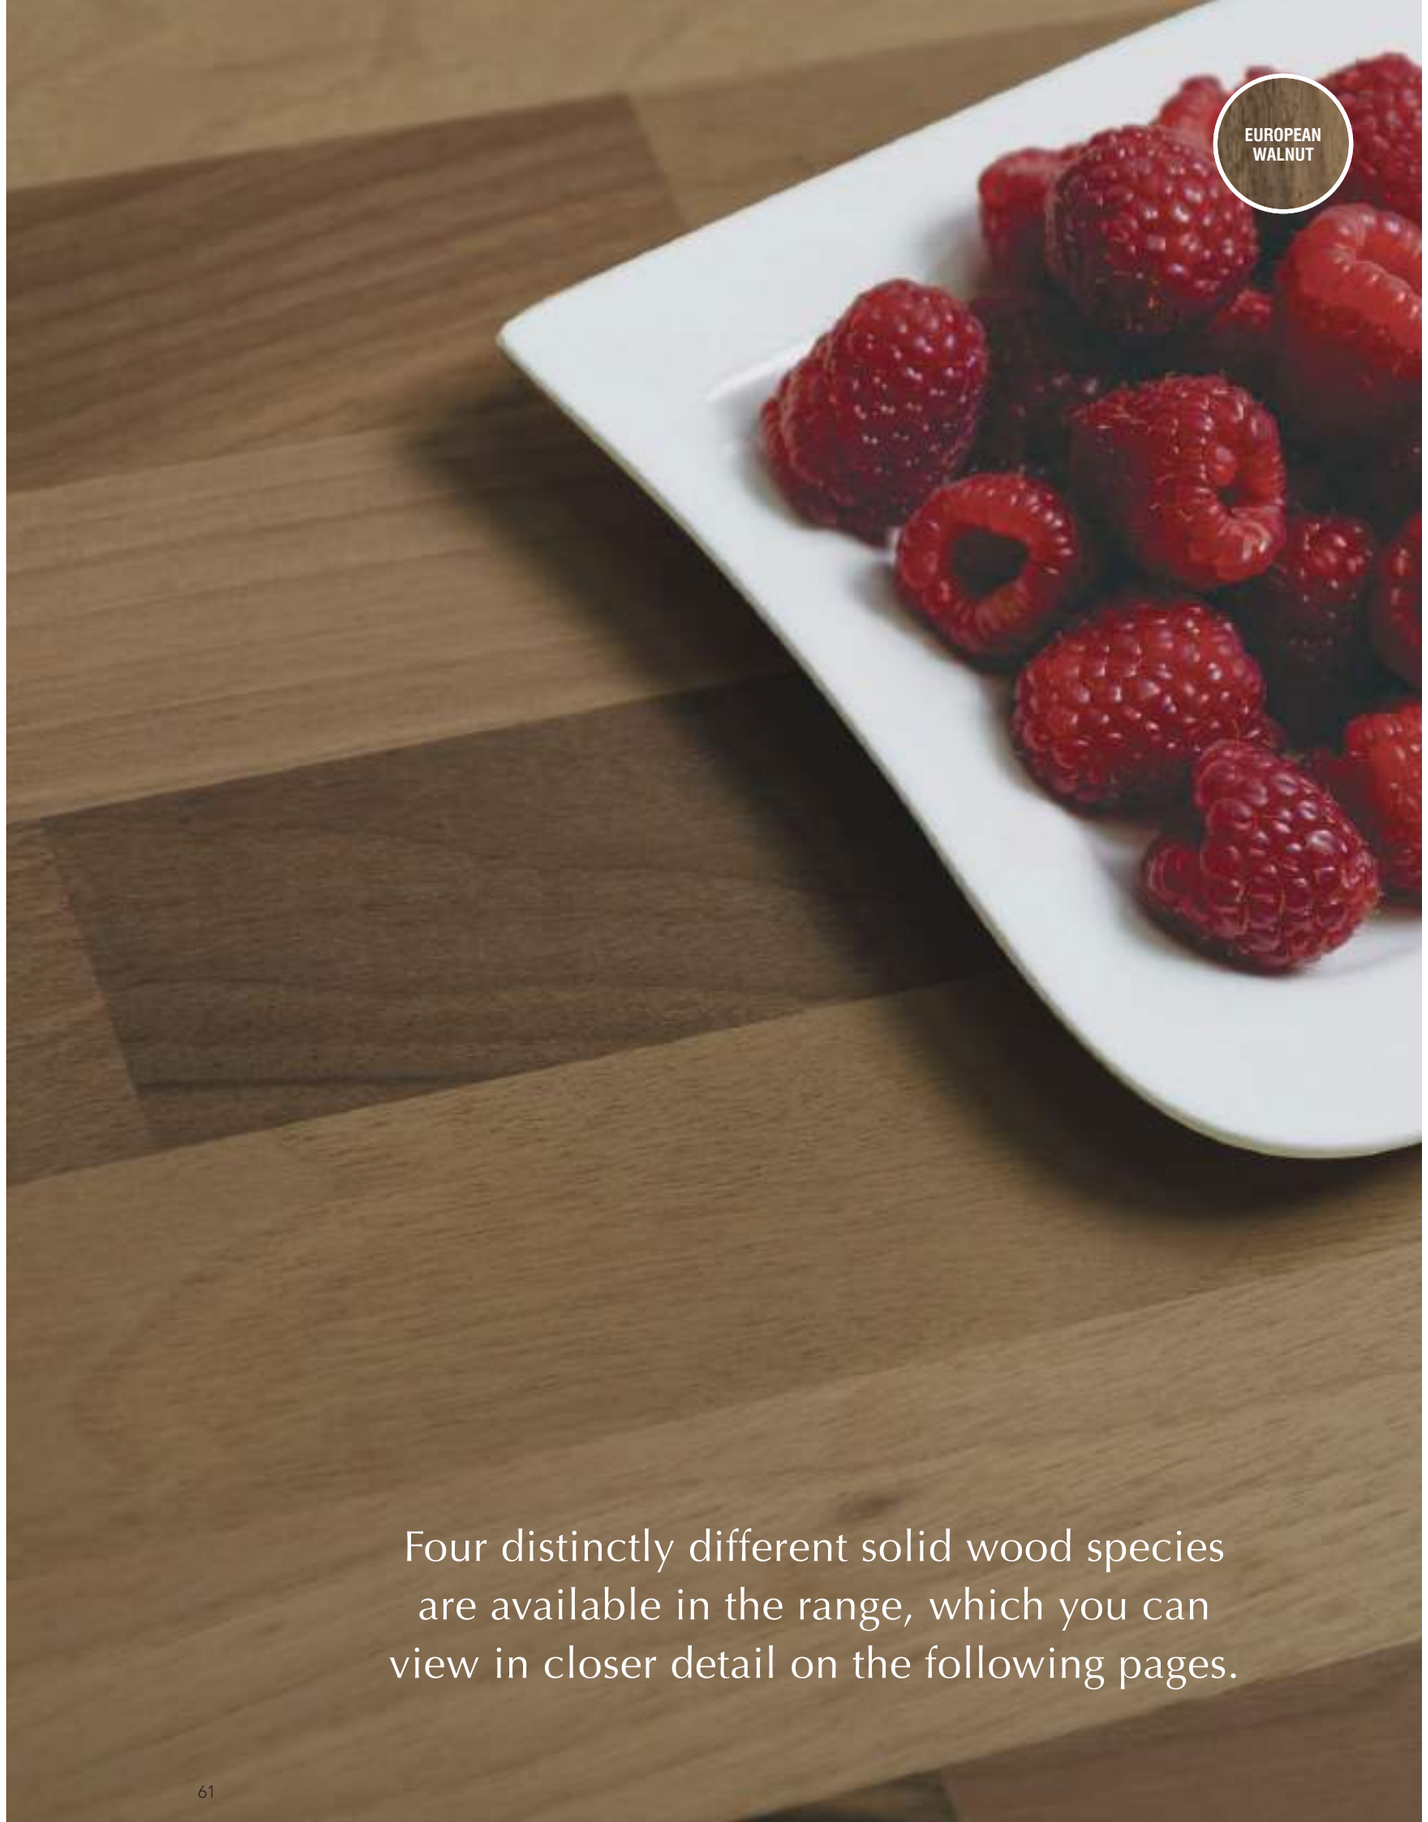
Natural born thrillers

Spectra Solid-Wood collection

Offering enduring quality and timeless style, Diversite Solid-Wood work surfaces are a natural product that will slowly mature to a richer, deeper colour.



diversite collection | Solid-Wood
Contemporary natural surfaces



Four distinctly different solid wood species are available in the range, which you can view in closer detail on the following pages.

Raw power

European Oak

Offering exceptional natural strength and hardness, oak has long been considered the material of choice for fine furniture makers.

It's a view shared by own craftspeople, who carefully colour match staves to create a consistent tone across the surface. A tone that will naturally deepen to perfection over time.

diversite collection | Solid-Wood
Contemporary natural surfaces

Different by design

Rustic Oak

Our Rustic Oak work surfaces are the natural choice if you're looking for a wood grain full of character and colour variety.

Providing the same signature strength and toughness as our European Oak work surfaces, the rustic finish is created by using contrasting staves.

diversite collection | Solid-Wood
Contemporary natural surfaces

Warm welcome

Rustic Beech

Add an invitingly warm tone to your kitchen with our Rustic Beech work surfaces.

The staves have been carefully seasoned to produce a variety of subtle colours that complement almost any kitchen scheme, while also providing the timeless beauty and rustic charm that only wood provides.

diversite collection | Solid-Wood
Contemporary natural surfaces

Ingrained style

European Walnut

The naturally rich, dark tone of walnut adds instant standout to any kitchen, which is why it's now the go-to grain for many homeowners.

This tightly grained timber delivers impressive strength and style, ensuring you'll appreciate its striking appearance for years. An appearance that's further enhanced thanks to the carefully chosen, colour-matched staves.

*The staves of European Oak and European Walnut are carefully selected to closely match each other's colour and grain.
**The staves of Rustic Beech and Rustic Oak have an increased variation of colour and grain.

Time well spent

Protecting your surface

What is it that attracts so many to wooden surfaces? For some it's strength. For others it's the natural warmth. For many however, it's the fact that wooden surfaces slowly mature to a richer colour over time.

However, to enjoy the benefits of this versatile material for years to come does require a little regular maintenance.

That's where Diversite preserving oil comes in. Simply apply the oil to your work surface with a clean cloth every two or three months to enhance it with a richer, darker finish. It really is that simple. What's more, oiled surfaces are not only easier to keep clean, they're more resistant to water damage too.

Apexstone in the kitchen

Apexstone is the ideal kitchen surface. This image shows you some of the practical and beautiful features you can have incorporated into your kitchen surfaces.

1. Worktops
The surface that works the hardest! Seamlessly incorporating sinks, drainer grooves, taps and hobs.

2. Island units and breakfast bar areas
An extra wide surface for preparing food and eating with friends and family. There's even a place for the children to do their homework.

3. Upstands
Upstands give you a hygienic and durable barrier from water and impact.

4. Splashbacks
A cost effective and hygienic alternative to tiles. Easy to clean: just a wipe down is all that's needed.

5. Hobs
Whether you own a ceramic or gas or induction hob, all types will work perfectly within your Apexstone surface.

6. Sinks
All styles of sinks and bowls work perfectly with Apexstone surfaces.

7. Recessed drainers and grooves
You can have waterproof drainer grooves seamlessly incorporated into your Apexstone surface. As shown in the image, you can also choose a recessed drainer to keep the rest of your surfaces dry and clean.

8. Decorative end panels
A decorative end panel seamlessly connects your Apexstone worktop, breakfast bar or island unit to the floor.

9. Windowsills
Apexstone offers a great alternative to traditional white painted timber or UPVC windowsills. It's also completely waterproof and easy to wipe clean.

10. Cabinet frame and shelving panels
As you can see with the oven and fridge housing unit in this image, colour matched Apexstone can be seamlessly fitted around the walls of your cabinets and form an attractive shelving area.

10 reasons to buy Apexstone

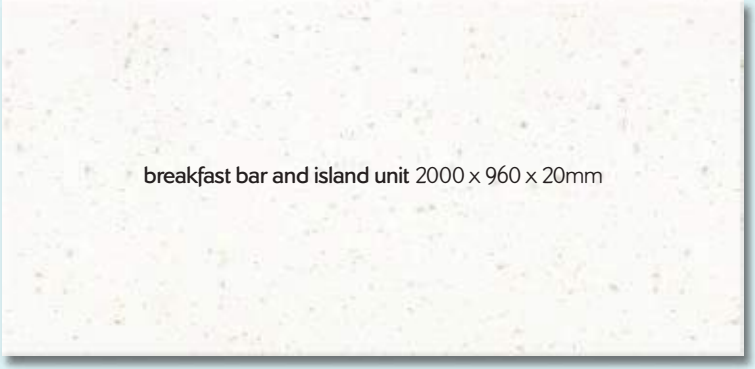
Turn the page and read on to find out why Apexstone is the perfect surface for every room in your home.

no. 1
size matters

Your installer can machine standard Apexstone components to perfectly fit the dimensions of your kitchen, bathroom and utility room. You can even have dimensions that are much larger than these standard components, using Apexstone's amazing seamless jointing technology.

All components are available using all of the Apexstone décors.

worktop, breakfast bar and island unit components



decorative end panels machined from worktop, breakfast bar and island unit components

12mm splashback and upstand components

no.2
durable

the resilient surface for modern living

Apexstone is designed for modern living.
Its solid construction means that Apexstone can easily
deal with the stresses and strains of being a hard working
surface in the kitchen, bathroom or utility room.

perfect for all wet areas

Apexstone is a pure solid surface through and through. It has no chipboard or any other absorbent core, making Apexstone completely waterproof. However much steam and water there is in the kitchen, utility room and bathroom, Apexstone is completely at home and secure.

The 100% waterproof quality of Apexstone makes it one of the most hygienic surfaces available because a clean, dried surface prevents bacteria from developing. Easy to maintain and user friendly, Apexstone's surface washes off every day marks with just soap and water, leaving it looking as good as new.

no.3
waterproof

Apexstone
cool steel sparkle

no.4

seamless integration

joints that are inconspicuous!

Simple yet classy. Apexstone's seamless joints create a naturally flowing appearance that is not only smart, but also hygienic, completely waterproof and so easy to clean. Better still, Apexstone's pure acrylic sinks and bowls can also be seamlessly integrated into Apexstone's super-hygienic surface.

no.5
hygienic

the safest surface

Apexstone is a completely safe surface on which to prepare and eat food, even if the children have taken over the kitchen! It's easy to clean and waterproof, so harmful germs are prevented from being retained on the surface. And, because Apexstone has smooth imperceptible seams, there are no unsightly joints in which dangerous bacteria can develop.

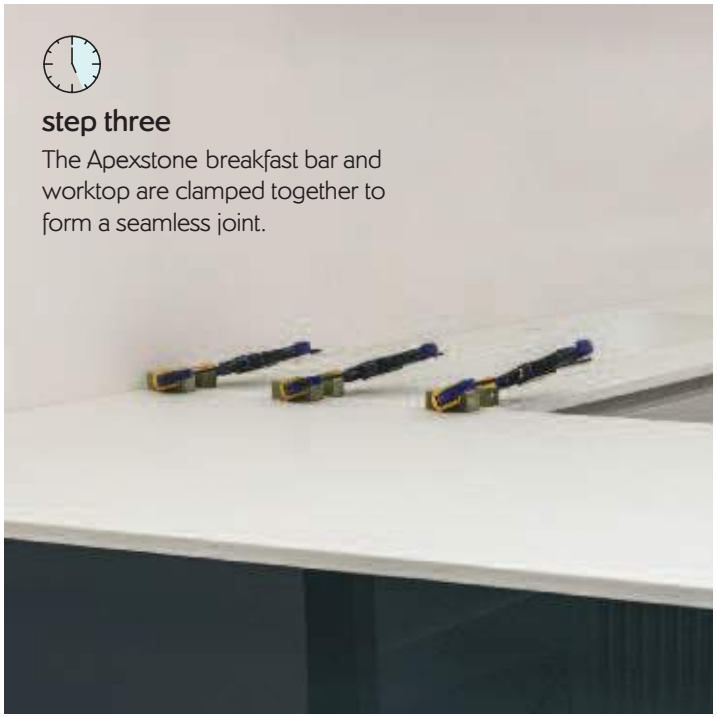
no.6
speed of fitting

no special tools needed

By carefully following the Apexstone installation instructions, Apexstone can be safely fitted in your home using standard woodworking tools. So Apexstone successfully avoids all the time consuming delays and inconvenience of other surfaces. And, the ex-stock silky surface texture of Apexstone saves your installer time during the final finishing stage.

step one
Your installer fits your kitchen cabinets.

step two
The Apexstone worktops are cut to size and placed on top of your cabinets with the sink fitted.



step three

The Apexstone breakfast bar and worktop are clamped together to form a seamless joint.

step four

The decorative end panel is fitted seamlessly to the breakfast bar.

step five

The splashback and upstands are installed.

step six

To complete the installation the hob is integrated into the Apexstone worktop.

Apexstone
alaskan

no.7

colour all the way through

consistent throughout

Apexstone's colourful stone effects are not just skin deep, they run consistently throughout its thickness. So, unlike many other worksurface materials, you can have uniquely stylish and practical features.

Take a look below to see two of these features.

Get into the groove

Hygienic drainer grooves can be easily installed into your Apexstone surfaces beside your under-mounted sink. And all this is done without any loss of colour or durability.

Ahead of the curve

Apexstone can be easily curved without any loss of colour or the need for unsightly joints. It can follow the contours of your cabinet design and give you a great looking corner on your island unit.

no.8
the décor collection

Each décor in the Apexstone range has been designed to effortlessly complement the colour scheme of your kitchen, bathroom or utility room. Choose from 17 distinctive options, everything from natural plain colours and classic marbles to beautiful stone effects such as avalon or sidewalk. Décor image scale is 1:2.

Also, take a look at page 27 to see full size décor images within the swatch pages of this brochure.

Stainless steel sink under-mounted into a Apexstone **snow quartz** worktop

no.9 wide range of sinks, bowls and drainers

Acrylic sink and drainer grooves recessed into this Apexstone **arctic** worktop so that splashes remain in the sink and drainer area

sink, bowl and surface integration

The majority of sinks and bowls fully integrate with Apexstone's worksurfaces inconspicuously, leaving no overhanging rims. This feature ensures a completely hygienic, easy to clean surface with a smooth, seamless look. The drainer grooves can be graduated from 2–5mm to create a waterfall effect that drains away drips and splashes. And, the sink and drainer can be recessed into the Apexstone worksurface so that the rest of your surfaces can be kept clean and dry.

All brands, materials and styles of undermount and inset sinks can be used with Apexstone.

something for everyone

Whether upgrading your kitchen, renovating a utility room or face-lifting your bathroom, choosing the right décor for your colour scheme has never been easier with our handy printed decor swatches. Simply flick through the following pages, find your perfect décor, then get in touch with your designer to discuss the finer details.

Your Apexstone surface will be hand finished by your installer. We recommend when installed into a kitchen or utility room that Apexstone is finished to a soft sheen. This will leave a surface that is beautiful, yet easier to maintain. It is possible to finish Apexstone to a high gloss, however this is only suitable in areas where the use of the surface will be gentler: such as in a typical bathroom. High gloss finishes require more care and maintenance. Please consult your installer to find out more details.

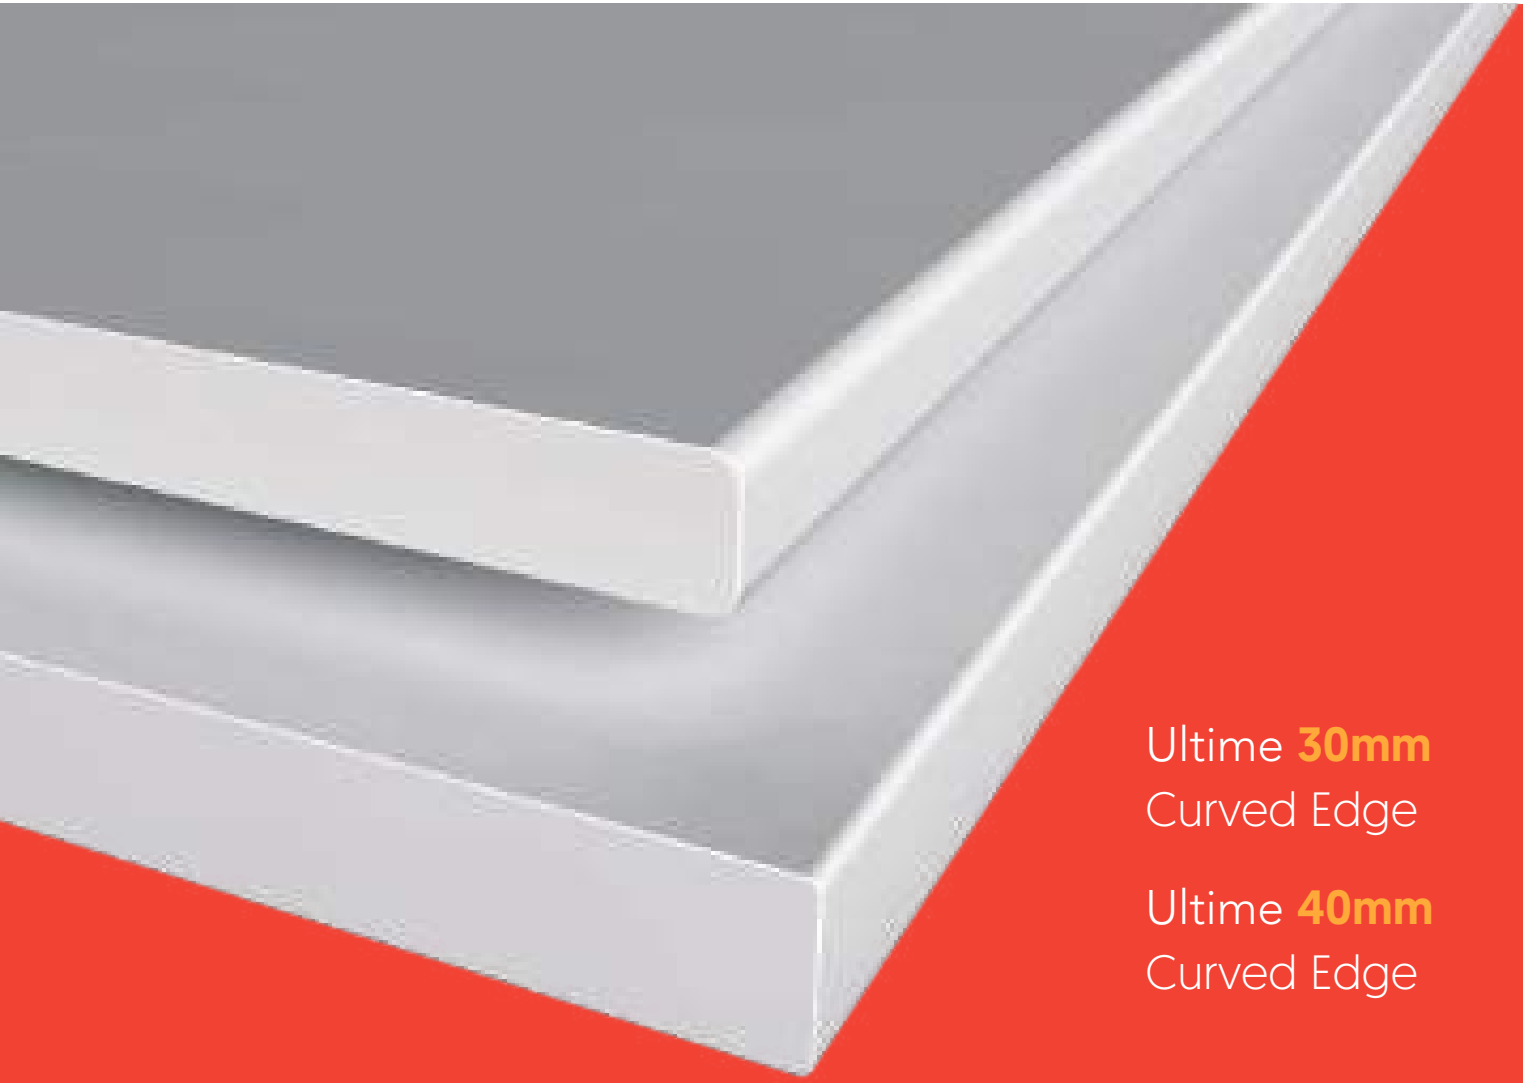
Ultime

Great value worktops
and breakfast bars



Ultime **30mm**
Curved Edge

Ultime **40mm**
Curved Edge

Just two simple steps to your perfect worktop

1. Select the thickness of your worktop from our 30mm or 40mm selection.

2. Choose your décor. See the décor availability charts on pages 12 and 14.

As easy as riding a bicycle:
that's Ultime!

30mm
Curved Edge

30mm thickness worktops and breakfast bars* with colour matched upstands and splashbacks that won't break the budget.

Slimline

It`s 30mm thickness is in tune with the current kitchen design demand for thinner worktops.

On trend

The leading edge of Ultime 30mm Curved Edge worktops and both long edges of Ultime 30mm Curved Edge breakfast bars* have classic, gently curved edges: which look great!

Low cost

Ultime 30mm Curved Edge is the lowest price range from the Ultime Collection.

Décor choice

15 sophisticated solid colour, granite, marble, wood and patterned décors to choose from.

Full availability information can be found on page 12.
*Breakfast bars are sometimes called island units or peninsula units.

40mm Curved Edge

40mm thickness worktops and breakfast bars* with solid colour, granite, marble, wood and patterned décors. All available with colour matched upstands and splashbacks at a great value price.

Curved-Edge

Ultime 40mm Curved Edge has a modern, tightly curved profile for the leading edge of the worktops and both long edges of the breakfast bars*. These new curved edges give Ultime 40mm Curved Edge an almost square edge look, which is a very popular kitchen surface trend.

Solid look

The laminate wraps around the top and bottom surface of each worktop and breakfast bar edge, giving Ultime 40mm Curved Edge additional protection and a stylishly solid look.

Décor choice

28 sophisticated solid colour, granite, marble, wood and patterned décors to choose from.

Full availability information can be found on page 14

*Breakfast bars are sometimes called island units or peninsula units.

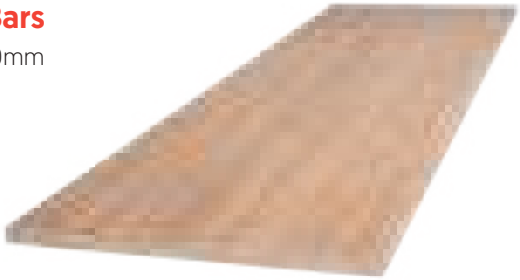
Breakfast Bars* and Worktops

The extra width of breakfast bars* in the Ultime Collection gives you the room to prepare food and sit together with your family and friends, whilst socialising and enjoying a meal.

The image on the right shows a Ultime 40mm Curved Edge breakfast bar* with a Ultime 40mm Curved Edge worktop in the background. All the décors of the Ultime Collection are available for both breakfast bars* and worktops.

Breakfast Bars

3000mm x 900mm



Worktops

3000mm x 600mm

*Breakfast bars are sometimes called island units or peninsula units.

Ultime Upstands

3000 x 100 x 18mm

Colour matched Ultime upstands will add the finishing touch to your worktop and breakfast bar* installation. Not only do Ultime upstands look great, they protect your walls by providing an effective barrier to water and impact.

Easy to install and keep clean, upstands are also good value for money.

All the décors in the upstand range exactly match the décors of the complete Ultime Collection of worktops and breakfast bars*.

Full availability information can be found on pages 12 and 14.
*Breakfast bars are sometimes called island units or peninsula units.

Ultime Splashbacks

3000 x 1290 x 8mm

Ultime splashbacks are a cost effective alternative to tiles. And, because most splashbacks are installed without any joints, they are much more hygienic than the grouted joints of tiles: where germs can develop.

Just like Ultime upstands, Ultime splashbacks are produced with the same décors that are used by Ultime worktops and breakfast bars, so you get a beautiful seamless look. Ultime splashbacks will also protect your walls by providing an effective barrier against water, cooking fats and impact.

And, a seamless splashback is so easy to wipe clean!

Matching splashbacks are available for every décor in the complete Ultime Collection of worktops and breakfast bars*.

Full availability information can be found on pages 12 and 14.
*Breakfast bars are sometimes called island units or peninsula units.

Ultime Quality

All Ultime products are manufactured in accordance with the BS/EN 4965 standard. This gives you the best possible heat, water, abrasion and impact resistance for laminated products.

The BS/EN438 laminate surface is bonded to EN312/2003 E1 high density particle board. A waterproof foil is bonded to the underside of each Ultime worktop and breakfast bar: this gives protection from water penetration. Each Ultime worktop and breakfast bar also has a polyurethane seal to protect the long edges from water penetration. The rear edges of all Ultime worktops and breakfast bars are also waterproofed.

Quartz décors have a protective foil to prevent surface damage from scratching and scuffs during delivery to your home. The foil is removed during the installation process. Each Ultime worktop and breakfast bar is delivered with a free of charge loose laminate edge for your installer to seal all edges cut on site.

The Ultime Collection has achieved the ultimate mark of quality – the FIRA Gold Award. All Ultime products are supplied with protective polythene wrapping.

Surface Finishes

There's something for everyone

In addition to the huge selection of solid colours, woods, granites, marbles and abstract décors that the Ultime Collection can offer, there are 6 exciting laminate surface finishes to complement your chosen décor.

Gloss*

This highly reflective, luxurious surface is one of our most dramatic finishes. However, it does require a little more care and attention to retain its glamour.

Matt

Matt is used with some of our stone and wood décors where the delicately textured surface helps to authentically create the look and feel of a natural surface.

Quartz*

A reflective surface, incorporating dazzling multi-coloured metallic elements which are freely distributed to give you a unique finish and look. However, it does require a little more care and attention to retain its glamour.

Satin

Satin produces a semi-polished sheen to enhance the colours of the décors that use this attractive texture. It also has the benefit of being a hard wearing finish.

Wood

A subtle variety of textures which follow the natural grain of real wood.

Stone

Stone has the same non-reflective and subtle unevenness of freshly quarried natural stone, but is easy to clean and maintain.

* Gloss and Quartz surfaces are more prone to scratching than other worktop finishes, so please take additional care when handling and cleaning.

Please check our availability charts on pages 12 and 14 for each Ultime surface finish and texture.

Ultime **30mm Curved Edge Décor Collection**

Every décor in the Ultime 30mm Curved Edge Collection has been designed to complement the colour scheme of your kitchen.
Choose from 15 sophisticated options, everything from solid colour, granite, marble, wood and patterned décors.
